In an effort to align ourselves with other arts organizations in the state, FDEO has laid the groundwork for a day of performance assessment with statewide participation at the high school level. This is an opportunity for schools to be assessed in three different categories. They will be adjudicated in these categories and earn a rating based on their performance. The ratings will include superior, excellent, good, fair, and poor.

Schools will be placed into different classifications based on the amount of hours of dance technique classes a week. Classifications will be designated as stated below:

Categories of Assessment

Technical Proficiency

Schools will be adjudicated on their performance of a preset phrase demonstrating their technical proficiency and skill sets. This will be provided at the FDEO Conference at Daytona State College on October 23 and 24 in DVD format. The DVD can also be ordered by contacting FDEO.

Movement Acquisition

Schools will be adjudicated on their performance of phrases that will be taught on-site. A ballet and a modern phrase will both be taught.

Ensemble Performance

Schools will be adjudicated on their performance of original choreography of either ballet, modern, jazz, or ethnic dance. This performance will not include costumes or special lighting. This is an assessment based strictly on performance.
